

Paddock Cleaner

With the paddock cleaner, mucking out is done quickly. It is ideally suited for mucking out all hard surfaces such as horse paddocks, hard pastures, trails or yard areas. The six reinforced rubber lips collect the manure and transport it into the collection container. The hopper can then be emptied on the manure plate. This technique saves valuable time and leaves a clean result.

All advantages at a glance

- Robust construction
- Height-adjustable collecting roller
- Manual floating position
- 360° rotatable wheels

Loader requirements

- Min. 1,100 kg lifting capacity
- Additional double-acting hydraulic connection
- 1 electrical connection 12 V switchable
- Hydraulic capacity > 40 l/min
- Locking detent
- Speed selector recommended

Dimensions

- Working width 1.15 m
- Total length 2.05 m
- Empty weight 420 kg
- Max. Speed: 6 km/h
