

FENCE TRIMMER

The fence trimmer cuts around fence or crash barrier posts, freeing them effectively and quickly from overgrown grass and weeds. Operated by the loader, the disc unit reaches under the fence and rotates on its axis the moment it contacts the post, cutting and freeing it from all grasses and weeds. The plastic rails protect the post from impact damage.

All advantages at a glance

- Work width: approx. 95 cm (1.47 m transport width)
- Forward speed: up to 4 km/h
- Tilt: +45° to -30°
- Steel blades or nylon threads
- Hydraulic transport work changeovers
- Electric control unit
- Three suspension springs provide effective ground contour following

Loader requirements

- 1 da or 1 sa coupler with pressureless return line
- Locking latch
- 12V, 3-pin socket on the operator platform
- Speed selector is recommended

Options

- Swathing curtain
- Nearside attachment
