

## DOZER BLADE

The dozer blade is ideal for simple levelling and pushing work. Even snowploughing is possible at low snow depths and on flat surfaces. As standard, the dozer blade is equipped with a mechanical swivelling device up to 1.80 m and a hydraulic swivelling device from 2.00 m upwards.

### Advantages at a glance

- 60 cm blade height
- Robust workmanship

### Options

- Hydraulic swivelling device for widths of 1.50 m and 1.80 m
- Rubber rail
- Vulkollan strip
